

CAREER OBJECTIVES

A dynamic and enthusiastic computer science engineer with a strong foundation in web development and experience in creating dynamic, user-centric web applications. I aim to apply my technical skills to contribute to innovative projects with real-world applications, driving success and growth within a forward-thinking organization.

EDUCATION

B N M Institute of Technology <i>Bachelor of Engineering, Computer Science & Engineering</i>	June 2021 - June 2025 CGPA-9.59
Vidya Mandir Ind. P U College <i>12th Grade</i>	June 2019 - June 2021 Percentage- 99.16%
Cluny Convent High School <i>10th Grade</i>	June 2007 - June 2019 Percentage- 98.56%.

CO-CURRICULAR

Projects:

Cpu Scheduler

- Developed an interactive simulation website for CPU scheduling algorithms, including First Come First Serve (FCFS), Shortest Job First (SJF), Round Robin (RR), Shortest Remaining Time First (SRTF) and Priority Scheduling.
- Responsibilities: Designed a user-friendly interface allowing users to input parameters such as number of processes, arrival time, burst time, priority, and time quantum. Implemented backend for FCFS and Round Robin Schedulers.
- Technologies Used: HTML, CSS, JavaScript

Hotel Management System

- Developed a user-friendly interface using the Django framework, enabling hotel staff to efficiently manage room bookings, check-ins, and guest requests, thereby streamlining daily operations and enhancing customer satisfaction.
- Integrated features for real-time room availability tracking and reservation management, facilitating seamless communication between front desk personnel and housekeeping staff.
- Resolved over three critical bugs within tight deadlines.
- Technologies Used: Django

Courses and Certification:

- The Microsoft Azure AI Fundamentals certification, offered by Microsoft Corporation, typically has fundamental AI concepts and services on the Azure platform, achieved through self-paced study or structured training, culminating in passing the AI-900 exam.
- IBM Cybersecurity Fundamentals certificate, provided by IBM, was earned after completing a rigorous 2-month program. It encompasses essential cybersecurity principles, risk management, threat detection, and incident response, validating foundational knowledge in the field.
- The Skills Build Certificate in AI, accredited by Microsoft, signifies proficiency in AI-related skills. This certificate was earned by completing a series of Microsoft-approved courses or assessments focused on various aspects of artificial intelligence, showcasing competence in AI technologies and applications.

Internship:

- Intern at Salesforce Administrator Virtual Internship
- Duration: 8 weeks from November 2023 to December 2023
- Assisted in organizational setup, relationship management within Sales Cloud, service delivery enhancements in Service Cloud, and automation of business processes.

SKILLS

Languages: C, C++, Java, Python

Web Technologies & Frameworks: HTML, CSS, JavaScript, ReactJs, Django, SQL

Software & Developer Tools: Git, Github, VSCode, Salesforce

PERSONAL DETAILS

Father's name: Guddappa

Dob: 11/ 03/ 2003

Languages Known: Kannada/English/Hindi
